

# *HANDOUT*

## HIV Prevention Services: A Summary of Injection Drug Users (IDU) Served and Allocation Estimate

Prepared by Christine Dahlgren, M.A.  
California Department of Health  
Services Office of AIDS

for CHPG, Fresno California

March 29, 2006

# Time Frame and Data Sources

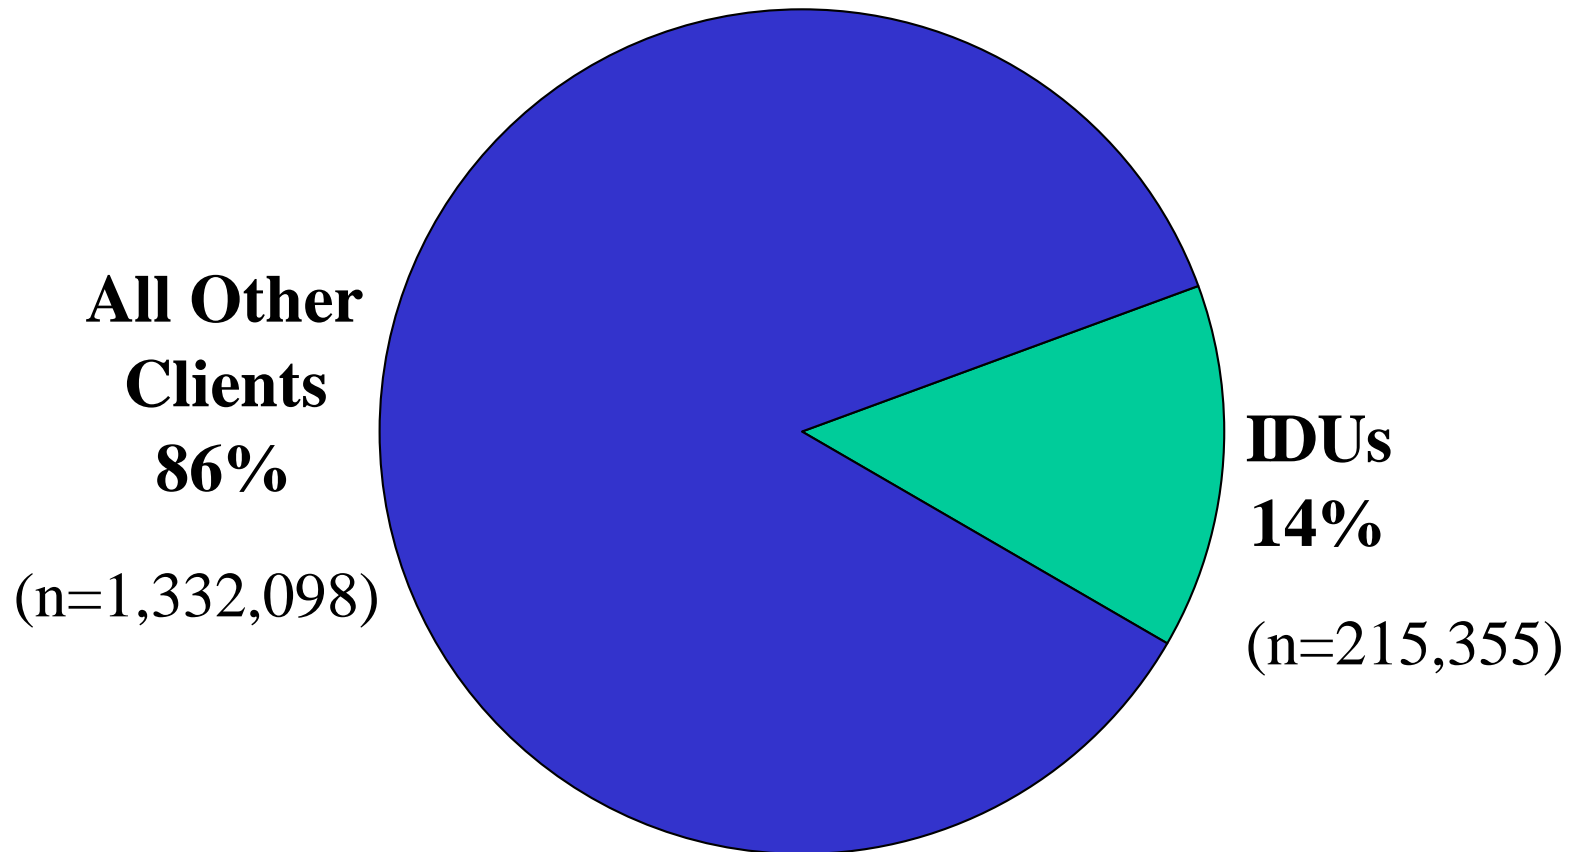

- July 2003 through June 2005
  - (2-year period)
- Evaluating Local Interventions (ELI)
  - Education & Prevention Activities
  - NIGHT Outreach
- HIV Counseling and Testing (C&T)
- Prevention SOWs for funding

# Limitations

- C&T:
  - Due to data system changes and compatibility issues, no Los Angeles County data was included for July 2004-June 2005
- ELI:
  - Majority of contacts from Outreach Checksheets
    - Extremely limited summary information
    - Cannot look at race by risk information together
  - Budget information estimated
  - Target groups are not mutually exclusive
    - LHJ decides which target to select
  - Limited data from Los Angeles County in ELI

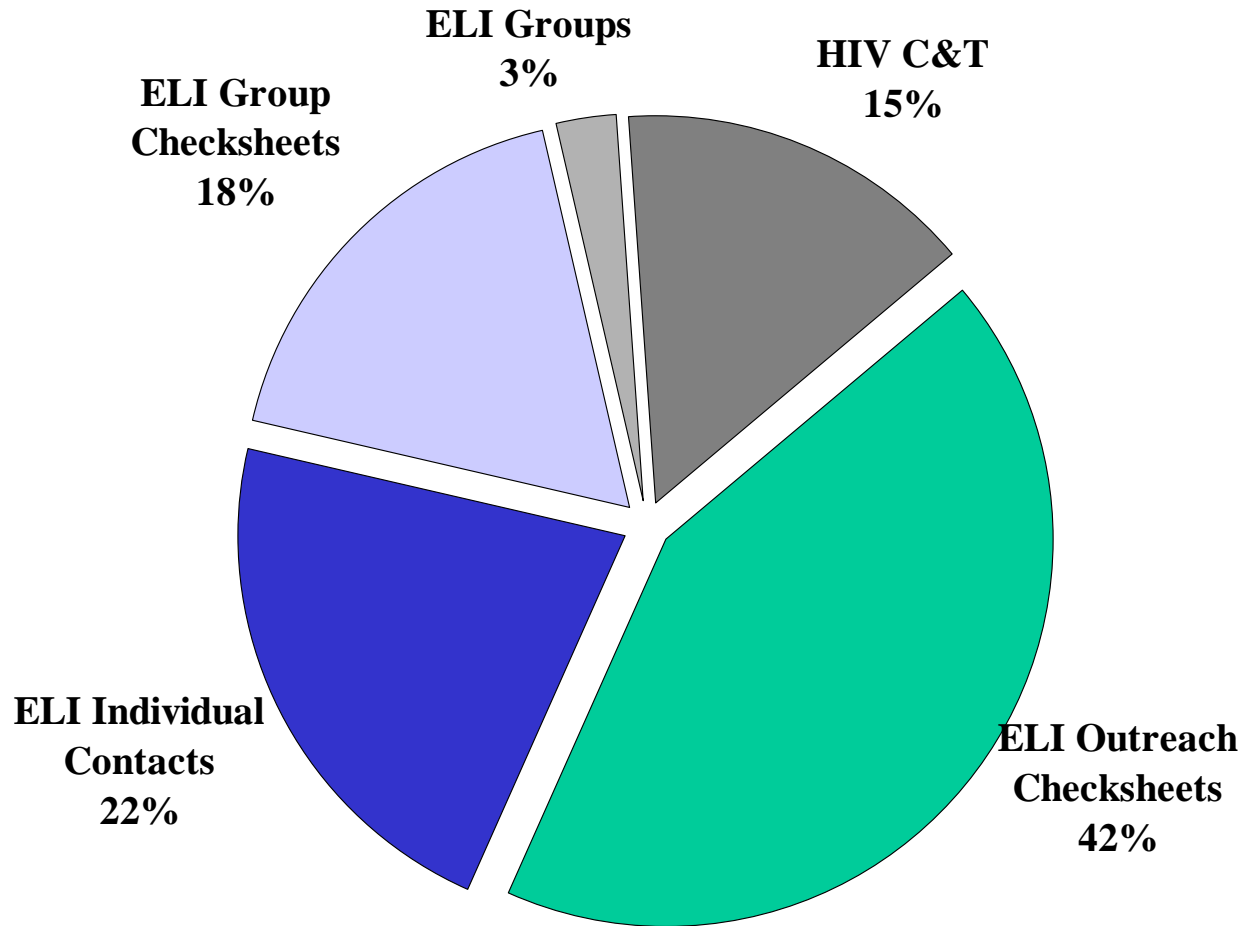

# Number and Percent of IDU Contacts in HIV Prevention Services

FY 2003/04 and 2004/05

# IDU Contacts by Intervention Type

FY 2003/04 and 2004/05

**215,355 IDU contacts**

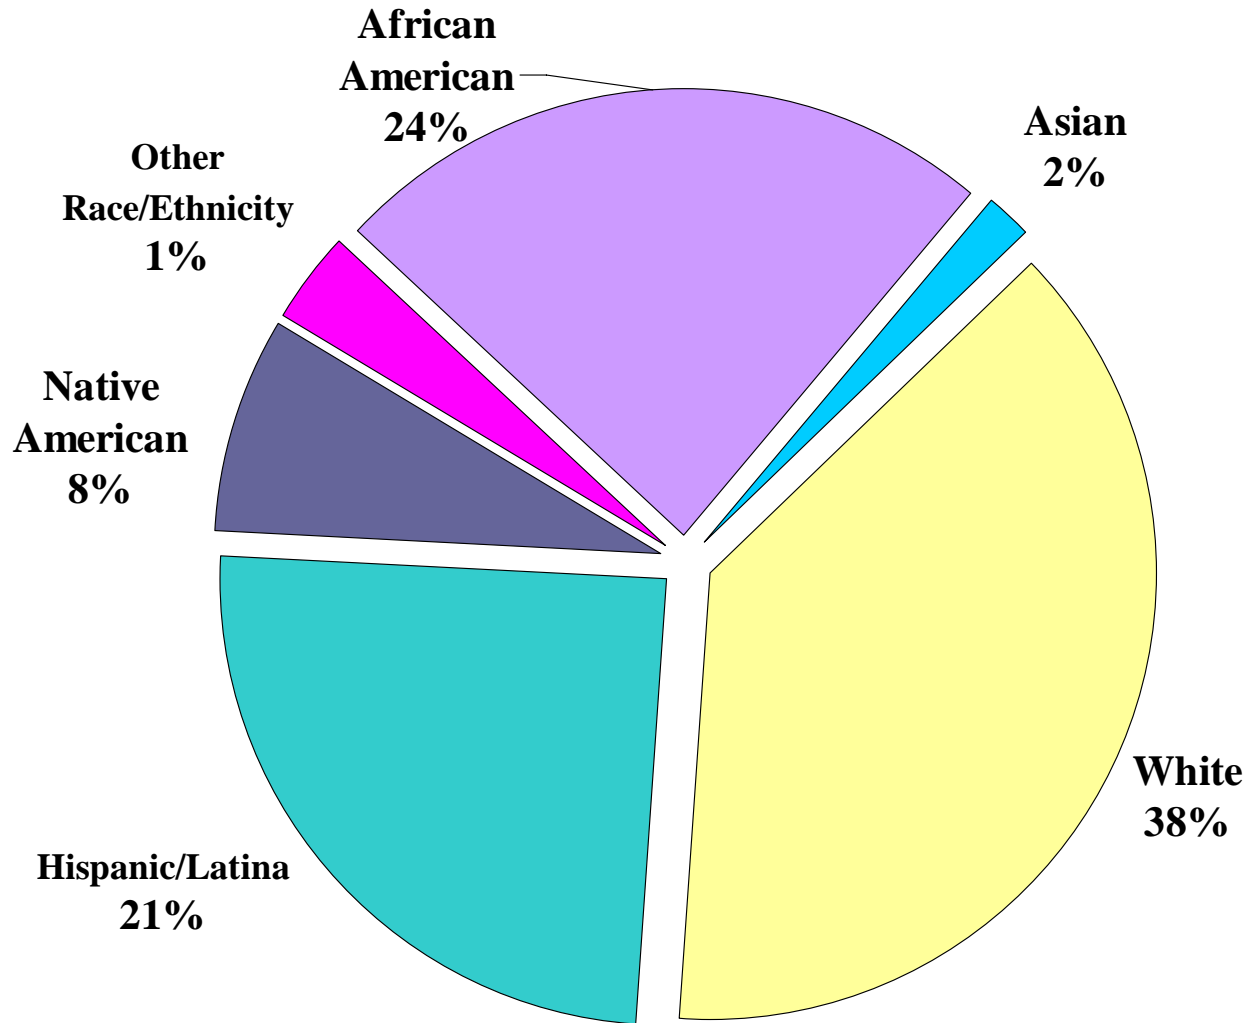

Prepared by the CA DHS, Office of AIDS

## IDUs by Intervention/Form Type

- 60% of contacts are obtained by outreach and group checksheet forms
- 22% ELI individual contacts include:
  - Outreach encounters greater than 5 minutes
  - Prevention case management
  - Various individual level interventions
- 15% of contacts through HIV C&T

# ELI Individual Contacts: IDU Clients by Race/Ethnicity

FY 2003/04 and 2004/05

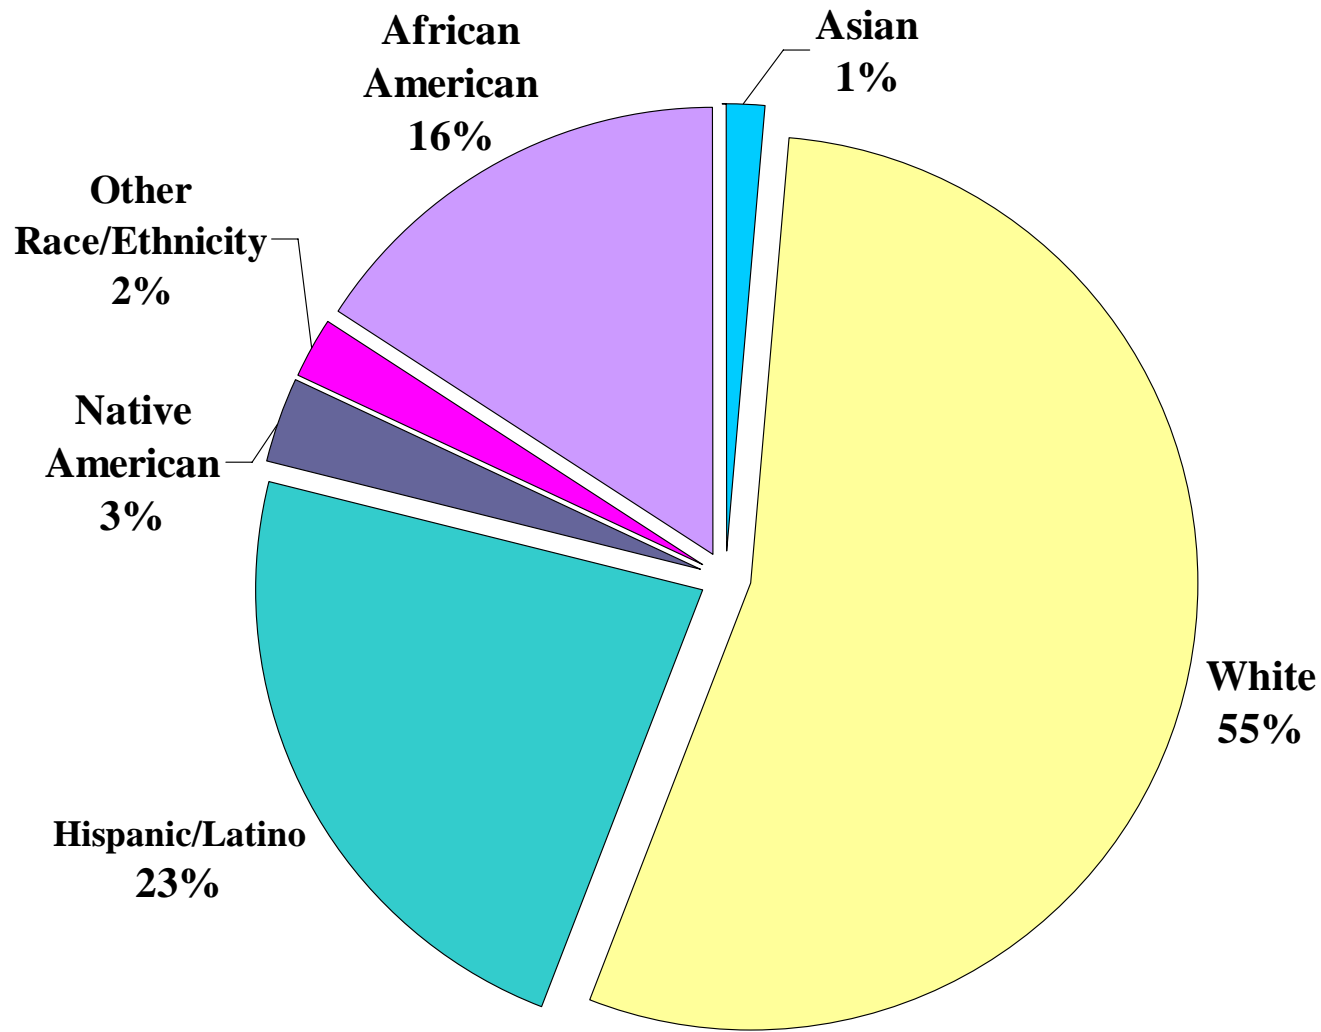

**52,524 IDU contacts**

Prepared by the CA DHS, Office of AIDS

# HIV C&T: IDUs by Race/Ethnicity

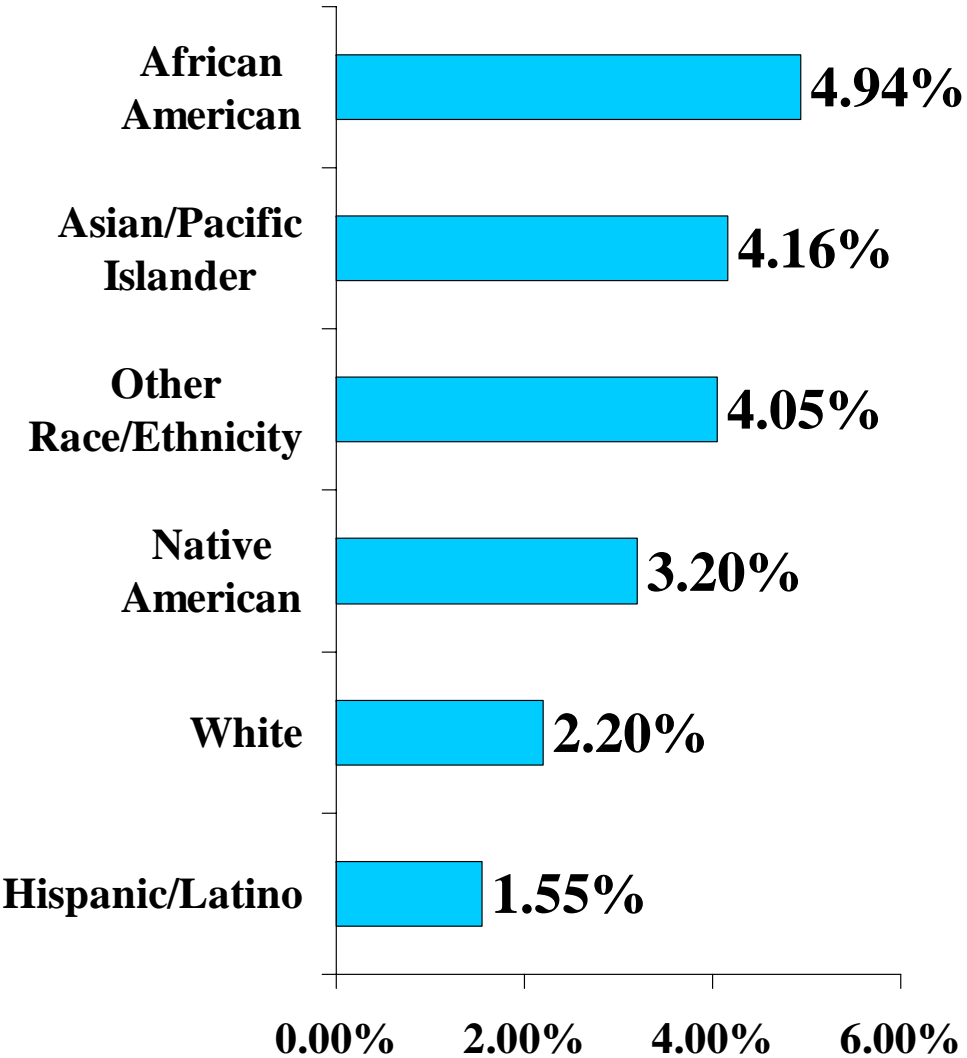

FY 2003/04 and 2004/05

**32,365 IDU contacts**

Prepared by the CA DHS, Office of AIDS

# HIV C&T: Percentage of HIV Positive IDUs by Race/Ethnicity

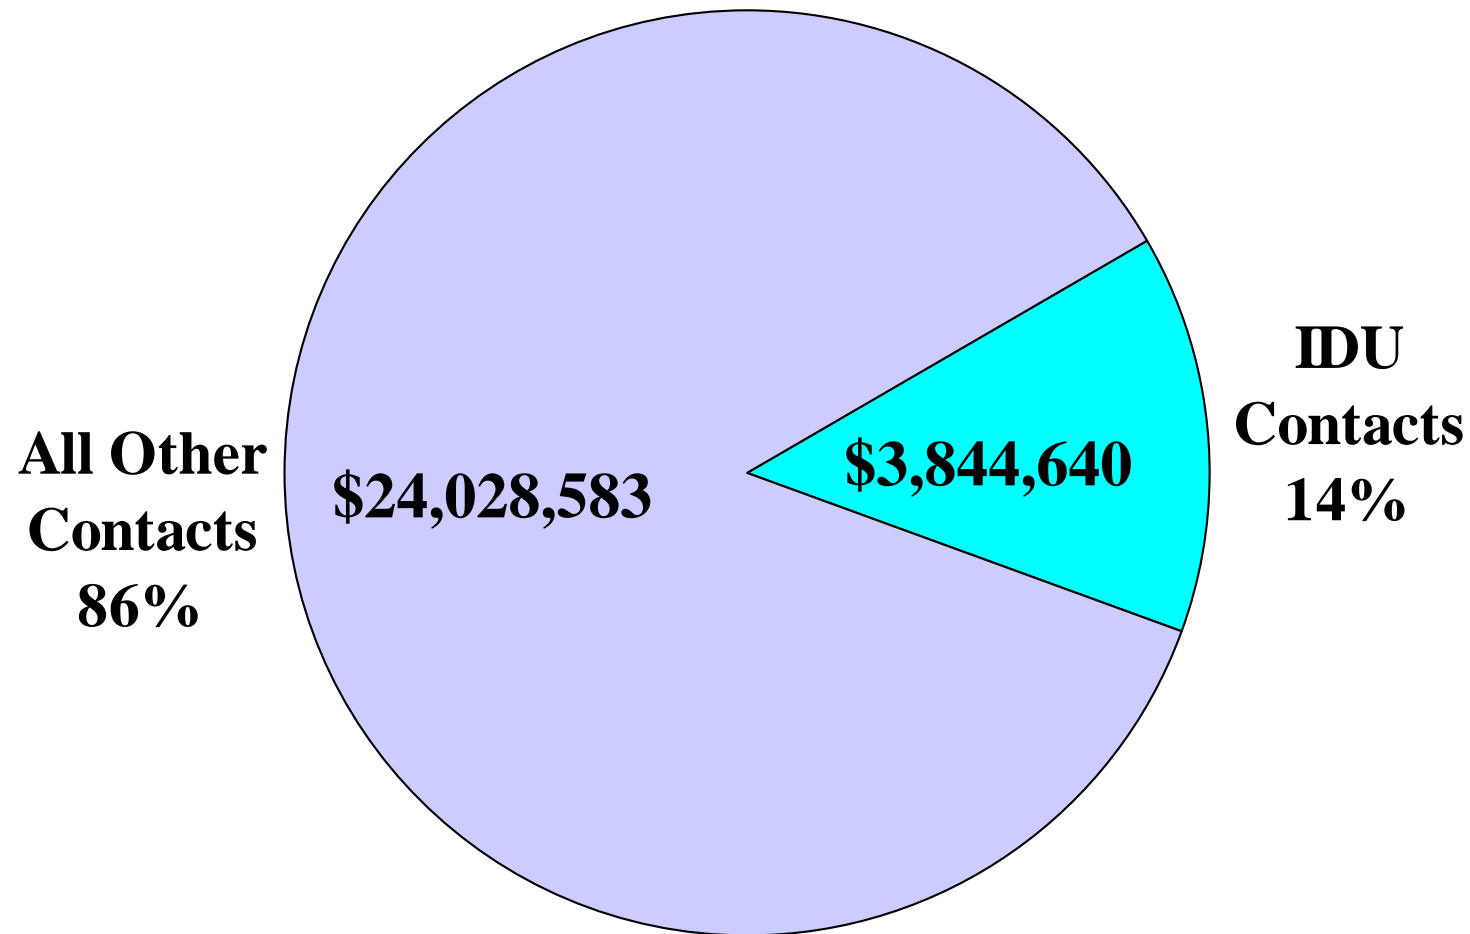

**32,365 IDU contacts**

## IDUs Race/Ethnicity

- ELI reports higher proportion of AA, Native American and Asian IDUs than HIV C&T
- Proportionally more White IDUs in C&T
- 5% or 253 of AA IDU had HIV-positive tests
- 4% or 19 Asian/PI IDU had HIV-positive tests
- ‘Other’ race had high percentage of positive tests (4%)
- Offer more testing in outreach?

# Average Annual Estimate of Prevention Funds for IDU Services

**TOTAL= \$27,873,223**

## Average Annual Estimate of Prevention Funds for IDUs

- \$3.84 million estimated for IDU services
  - 17% of these dollars for HIV C&T
  - 83% of these dollars for E&P and NIGHT outreach
- Annual estimate based on the average of FY 2003/04 and FY 2004/05
- Refer to limitations of the data at beginning of presentation
